

### High Performance Hose

To meet the demands of just about every application our range of performance hoses includes stainless steel braid, teflon lined stainless steel braid, black nylon braid and red or blue push fit hoses. In sizes from -3 all the way through to -20. When it comes to hose we will have you covered!

### Silicone Hose

Silicone rubber is renowned for providing maximum protection in automotive engine applications. Motorsports test the limits of component performance. The 4 ply construction of our silicone hose was designed and tested to thrive in these conditions.

### Tools

To assist in the installation of our hose and fittings we manufacture a huge range of tools to make the job much easier. Including our innovative rotary vice and our line of ergonomic aluminium shifting spanners or single and double ended spanners.

### Hose Ends

With one of the largest ranges of colours and sizes Proflow are certain to have the correct fittings to suit your unique application. From the traditional red and blue coloured Aero Series right through to our show stopping Ultra Series with its chrome finish. Proflow are proud to introduce our latest line the gloss black Shadow Series. The perfect compliment to our black nylon braid light weight hose. Our range of hose ends and adapters all feature a corrosion resistant double anodized finish. The lightweight aluminium construction has been designed to provide maximum fluid flow and are totally reusable.

### Aluminium Adapters

Our range of aluminium adapters is the solution for just about every plumbing problem. A huge variety of shapes and sizes to suit AN, NPT, Metric and Hose Tail connections.

### Stainless Steel Fittings

Our line of stainless fittings and adapters are extremely durable and provide maximum corrosion resistance. CNC machined to provide precise thread engagement and maximum seal protection. Excellent for brake systems or marine applications.

### Fuel System Components

We manufacture a full line of fuel system solutions. From polished aluminium surge tanks through to our range of mounting brackets and fittings to suit Bosch fuel pumps. Recently we have released our new range of fuel pressure regulators and fuel pumps.

### Billet Fuel Rails

Our billet fuel rail kits feature an internal diameter of 17.7mm we believe this to be the largest on the market today! Our kits come complete with everything you need to convert your engine to conventional Bosch style injectors.

Available to suit:  
Mitsubishi 4B61  
Nissan RB25  
Nissan RB26  
Nissan RB30  
Mitsubishi SR20  
Honda / Chevy LS1  
Honda / Chevy LS2  
Honda / Chevy LS3  
Subaru EJ20  
Ford EF-8A 4.0  
Mazda 1.3i

### ***Billet Fuel Filters***

*Our fuel filters feature a cleanable 100 micron element and a CNC machined billet aluminium body, anodized in your choice of either black or silver.*

### ***Billet Reusable Oil Filters***

*Designed to work under the harshest of conditions our billet oil filters come complete with a 45 micron element and an internal magnet for maximum protection. Available to suit all common engine applications including Sport Compact and Harley Davidson.*

### ***Fuel Cells & Catch Cans***

*Available in a variety of sizes to suit most applications our range of fuel cells feature robotically TIG welded seams and are constructed from quality 5051 aluminium. The billet CNC filler cap has a highly polished finish and nylon nuts. All of our fuel cells come complete with safety foam and a fuel sender provision. Our catch cans feature the same quality construction with the added extra of a stainless steel cleanable and reusable breather element. Available in either polished or natural finish in multiple sizes to suit most applications.*
